Comprehension Passage I

Many people like to eat pizza, but not everyone knows how to make it. Making the perfect pizza can be complicated, but there are lots of ways for you to make a more basic version at home.

When you make a pizza, you must begin with the crust. The crust can be hard to make. If you want to make the crust yourself, you will have to make dough using flour, water, and yeast. You will have to knead the dough with your hands. If you do not have enough time to do this, you can use a prepared crust that you buy from the store.

After you have chosen your crust, you must then add the sauce. Making your own sauce from scratch can take a long time. You have to buy tomatoes, peel them, and then cook them with spices. If this sounds like too much work, you can also purchase jarred sauce from the store. Many jarred sauces taste almost as good as the kind you make at home.

Now that you have your crust and your sauce, you need to add the cheese. Cheese comes from milk, which comes from cows. Do you have a cow in your backyard? Do you know how to milk the cow? Do you know how to turn that milk into cheese? If not, you might want to buy cheese from the grocery store instead of making it yourself.

When you have the crust, sauce, and cheese ready, you can add other toppings. Some people like to put meat on their pizza, while other people like to add vegetables. Some people even like to add pineapple! The best part of making a pizza at home is that you can customize it by adding your own favourite ingredients.

Comprehension Passage II

Given below is an extract from a letter written by Prakash Padukone, badminton champion, to his daughter, Deepika Padukone, film star.

There is no substitute for perseverance, hard work, determination and passion for what you choose to do. If you love what to do, nothing else matters neither awards nor compensation, not even the gratification of seeing your face in newspaper or television. When I won the All England championship, the prize money in badminton became significant \$3,000/- a huge amount in those days.

But that did not distract me from the sheer joy of having been instrumental in putting India on the global map of this game. Deepika, at eighteen, when you told us that you wanted to shift to Mumbai for a career in modeling, we felt you were too young and too inexperienced to be alone in a big city and in an industry we knew nothing about. In the end, we decided to let you follow your heart and thought it would be cruel to not give our child the opportunity to go after a dream that she lived and breathed for. If you succeeded, it would make us proud, but even if you didn't, you would not have any regrets that you did not try. To win some, you have to lose some. You have to learn to take life's ups and downs in your stride. Even during my toughest times, I focused on what I had, instead of dwelling on what I did not.
